

Deciding on pulse and meter

Remember that a pulse must feel like a clock. It will have completely even ticks, even though the clock can be set to tick by faster and slower.

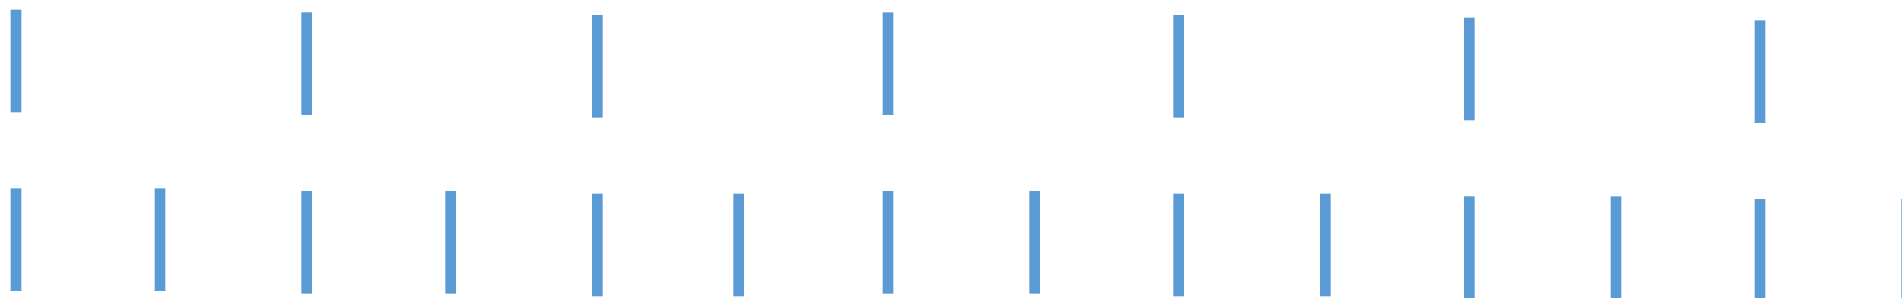

All music that is in a meter will have multiple layers of pulse.

All music that is in a meter will have multiple layers of pulse.

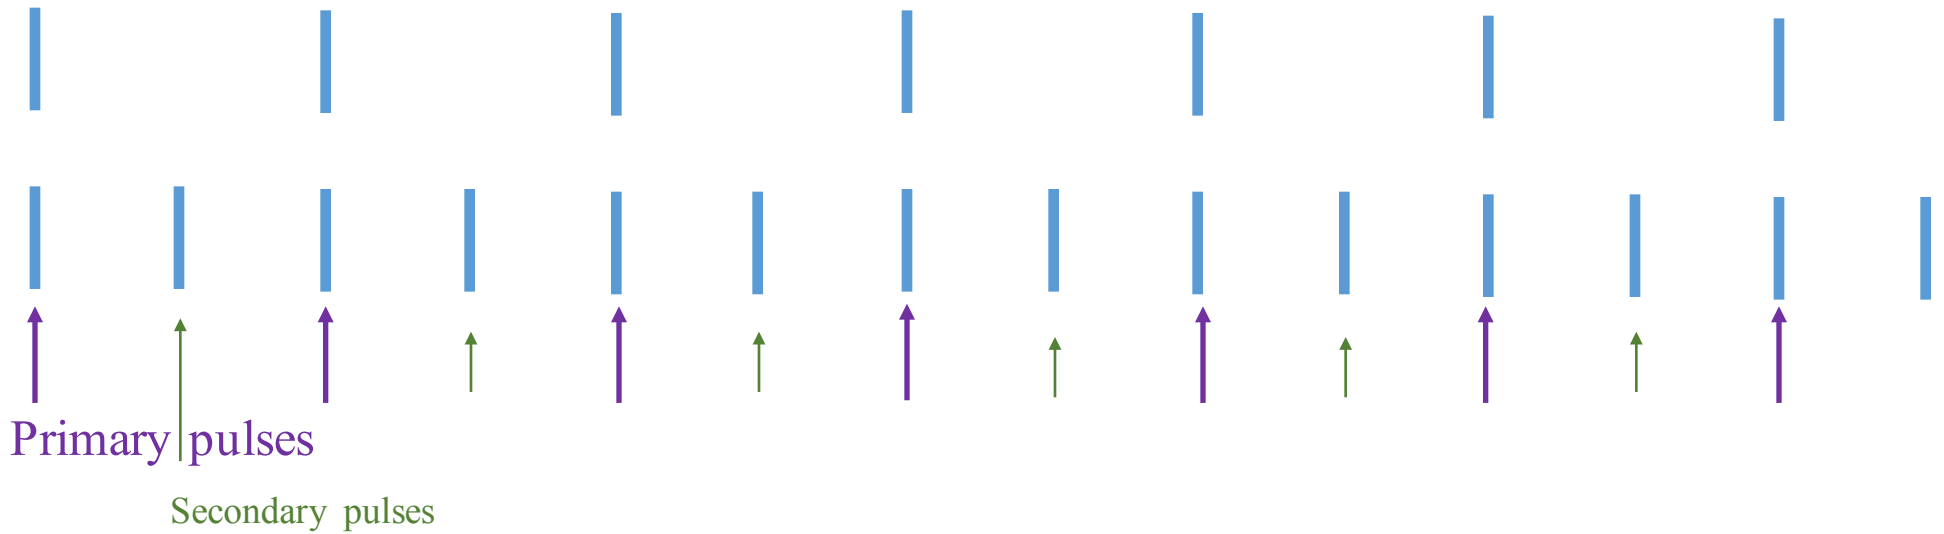

Here is our original pulse stream for Twinkle yet again

But Look! Here is another possible pulse stream above it. It moves twice as slow. This slower stream is **always present**.

The intersection of the two levels makes some pulses stronger.

When music exhibits patterns of primary and secondary pulses, it is said to have METER
